AMERICAN BUSINESS.

Gold dust of the value of \$1,50,000, month to the assay office. Prospectors, miners and supplies (American goods) are pouring into the territory. Settlers are also homesteading. All these will both produce and want.

The port of San Pedro, Los Angeles s shipping American goods to the Ori-Dollar, 10,000, left Moji, Japan, on May 22 for San Pedro, with passengers and 6,500 tons of cargo. On the same day the steamship Hazel Dollar left San Francisco heavily laden for the Orient. and on arrival will load a cargo for San Pedro. These ships belong to the Dollar Steamship Company, and these sailings begin a new service. The ship ping freight agent says: "The rail facilities of Los Angeles are superior to those of other coast cities, and the harbor of San Pedro, Los Angeles, is not exthe pressing celled." The port will probably also be the southern terminus of the steamship. Buckman and Watson. It is a ready doing a Pacific Mexican business

Ten years ago the Unite! States was ican, but it selling British Australasia \$0,000,000 a dent of the year, and buying \$4,000,000 a year. Now as one the figures are \$26,000,000 and \$12,000. with the Taft oon respectively. VER since its birth, and up to a jority of the fair sex present, it is doubt- attractive, who sat across the way. Mary, my child? And Trevelyan? Why, year or two ago, Bellport, as a ful whether any of them had received Every time she met his glance she what do you do here?" more than their quota of masculine at- slightly flushed, but the young man kept on smiling.

This young man was Mr. J Warner

Andruss, in order to make no mistake, watched his operations for a few moments; the fellow was persistent. He waited until the young woman lookel once more in his direction, and then he boldly winked at her. The young woman, I ready to give it. He stepped up to the young man and regarded him sternly The young man did not seem to see him Instead, he kept his eyes fasteried up it the girl across the way.

"Sir," exclaimed Me. Andruss sternly, "you're a scoundrel!"

Mr. J. Warner Trevelyan sniffed the air. Then he turned aside his head. "Such a lot of drunks on the cars nowadays," he murmured to the man next to him. The man next to him, who did! not care to be mixed up in anything, failed to make reply.

Mr. Trevelyan threw hack his overcoat somewhat carelessly. As he did so Mr. Andruss gasped with astonishment For there, displayed upon the lapel of the young masher was another linten of the auti-mashers. Mr. Andruss' inpatience then knew no bounds. For the oung gentleman, boldly displaying this button to advantage and utterly ignoring Mr. Andruss, again winked upon the young lady and slightly motioned with

"You-you-you hypacrite," yelled Mr Andruss, advancing in a rage upon the young man and tearing from his cont. the hutton; "you angodly scoundreltend in human shape!" Then and there about the head, and immediately there was a furore in the car of the most exciting kind.

gain his headgear, and in that ninguarded moment Andruss was again upon him. but Andruss was not.

"You-you loufer" he shouted to the

down." Andruss was not drunk, and the passengers who knew him knew that he was not. Andruss therefore called upon the citizens for aid. The citizens, many in to render it. But the young man was able is a large extent to take care of himself. He parried flows and tripped up men with wonderful impartiality. He seemed to enjoy the thing. But they were too much tor him. Finally he had to yield. They pushed him up into the corner of the ear, and a half dozen men

As they hustled him out of the car he shouted out to somebody in a loud voice, But the crowd never heeded his cries. They hauled him out and down the steps, and the car went on.

As it went on, the young lady, who had been in a great state of excitement, now burst into tears and uttered incoherent things.

As for Trevelyan, he was locked up overnight, and every anti-masher and promoter of propriety promised to be or hand to prosecute him in the morning. "You fellows will be sorry over this, he said, as he was led downstairs.

The next morning Andruss and his followers were all on hand. As this was a very flagrant case, Andruss on his way down had called upon the Rev. Jonathan Boggs, a new clergyman in the city, who was interested in the movement. Mr. Boggs' sermons were always up to date, and Mr. Andruss knew he would be glad of the opportunity to be

They all assembled at the courtroom. Back in a remote corner, unnoticed by all save Andruss, sat a young lady. This was the young lady of the car the night before. Andruss, seeing that he was flustered and unstrung, did not approach her, but knew that in due time he could use her as a willing witness.

The clergyman, the center of another group, stood up near the front. The prisoner was brought in. The clergyman, who was a bit nearsighted, peered at him over his glasses. The young man

did not see the minister. "What's the charge here?" asked the

police court judge. Mr. Andruss stepped forward. At that

At the same instant the clergyman

was going on. But nevertheless, he terned around to Andruss. "Mr. An-Frevelyan, but to Mr. Andruss he was druss," he exclaimed, "permit me to pre-stepped forward. "I will pay the costs," sent to y : my dangluer Mary, now he announced with a smile; and he did. Mr. J. Warner revelyan, and my son- Mr. Andruss and his followers are now in-law, Mr. J. Wirner Trevelyan. Mr. members of his church, and left their Andruss-Mr. Trevelyan, Mr. -Why, bless me, what's the matter?"

There was matter enough, it seemed. Mr. Treve's m, a very mary man, waited aware that Mr. Andruss and cthers in patiently until Mr. At hiss had abjectly the car were watching her, finshed up withdraw his complaint against Treveegain. Mr. Andruss moved a step nearer Iyan for attempting to slirt with his own to the scene of operations. Then he wife. Then Trevelyan, with considerwomen of the city. While it is generally breathed a sigh of relief. Perhaps the modern craze is, after all, only a form of luxury. A candled ningly prepared for the tea table could not possibly enter into the entegory of cheap sweets for the millions, and it

BREAKS BY CONGRESS

dous Amount of Work Transacted Just Before Adjournment.

In the hurry and bustle of "get away" day in Congress, a few errors slipped in to apset the calculations of jurty leaders. One of these was the signing of the agricultural appropriation bill by the President before that a cosure contained the signature of the Speaker of the House of Representa thes. Of course this oversight was corrected, but the question then prose as to the importance of having the bill signed by the Stenker and the Vice President, Their signatures merely certify that the bill bics passed their respective houses, the important fact the material which her delegation the House and Senate. For this reason it is not regarded as being abso lutely indispensable that a bill should products of the country are adulter a tremendous crowd of workmen tter the thonse All that is necessary is to frauded. The space in front of the be signed by the presiding officer of establish the fact that it has been so PIRAMINI.

> Another "break" was the presidential approval of the sundry civil Idil jellies, this of peas, tomatoes, corn containing an Item appropriating \$1,000,000 for a site for a new departmental building in Washington. clerks falled to notice the omission demonstrate to the House through of the bill laid before the President for sity for a national pure food law, bls signature. When the error was discovered, a resolution was adopted the Congressman was the ordinary \$1,000,000 oppropriation.

It is not strange that these misorder to recoperate.

CANADIAN RECURROCITY.

Northern Sister Would Like Such Arrangement; But is Walting Move by This Country. A letter from Ottawa, Canada,

dates that the question of reciprocrity between Canada and the Unite. Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many eases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Daveport, lowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering," Woods & Orme,

Saved His Comrade's Life.

"While returning from the Grand Army Encampment at Washington City, a comrade from Elgin, Ill.,, was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland, of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties to the south and west. I always carry this remedy and have used it successfully on many occasions." Sold by Woods & Orme.

Miners Return to Work.

Harrisburg, Pa., July 17 .- Opera. tors and miners of the central Penn. sylvania bituminous coal field reached an agreement today. The agreement provides for the open shop, arbitration and cheekweighman's fund, and an advance of 5-55 per cent. on the seale paid prior to 1906.

The agreement affected forty thousand miners who are out in fourteen counties, and is subject to ratification by the district convention.

The agreement is regarded as a compromise, the miners getting the wage advance and the operators the open shop, arbitration and cheek. weighman points. National Secretary Wilson, when asked tonight regarding the agreement and scale made said: "The thing that gratifies us is that it gives us the 1903 scale, and that is all we contended for."

Wilson, Building Committee.

editor of this department desires to keep in touch with the active s of Civic and Lacui Improvement Associations, and every one in the improvement, protection and uphnisding of rural village

What is being done in your town to encourage small industries and for home employment? What is doing along the line of street improvement and the beautifying of private lawns, readways and public parks? Are your local merchante receiving the support of the local trade? Experience, plens, anggestions and photographs will be wetcomed by editor of this department and so for as possible given place in these

The Local Handleup.

The Prophet is without honor in his own country. So the village and small town are without confidence in their own resources. We get so familiar with the things about us that we re apt to underrate their value, it is often necessary for a total stranger to come along and show us the neglected opportunities that have been under our nose unseen for years,

The writer while pursuing same industrial investigations had occusion to violt a thrifty little city in the Southwest. It is an old town that has literally been forced to the front by the pressure of development and northern energy. The place has five railroads, a population of 30,000 and a number of modern buildings. Still the natives be one of the most sane and practical

THE HOMECROFTERS' GILD.

To Enable People to Live in Their Own Home and on a Piece of Their Own Lund.

CHANCE FOR FACTORY WORKERS

"Every Child in a Garden and Every Mother in a Homecroft" is the Motto of the Organization-A Hundred Children at Work in the First School Garden at Watertown, Mass. EDWARD T. HARTMAN

Secretary Massachusetts Ulvio League. At Watertown, Massachusetts, there is being put under way what seems to

HOUSE AND HARN FOR HOMECHOFT VILLAGE, Waterfown, Mass

looking around' with no special par constructive social workers. pose in view. A curbatone real estate the thomserofters Gild offers garden broker had on his had a tract of holtone work and croftsmanship as a substito this stranger for \$1 ml per nere to the health of the "sucker." Rut sit. the speker returned in about a month with snother capital'st from the North and sold this werthless trust for \$30,-But title was 1 it all Within ninety days the second sucker brought a third and sold him the timber alone for \$50,000. And then the local

For years people have been leaving looking for opportunities. To day finding money on every bush. The new-coniers are slumply developing the recourses which the natives falled to recognize.

This principle holds true of a ma-Jority of Individuals in every community. We are too near to see the opportunities at our feet. We pass them over and leave them for someone to pick up.

The twentieth century for the I'nited States at least will be a time of concentration rather than expansion. A not, who supplements his regular incentury of rural development and home-building. As has been indicated work on the land, itis children may the people must get back to the lind, and industrial institutions to reach their best development must give the worker a chance for a home.

The Value of a Good Garden. Many people fall to realize the great value of a thrifty, well-kept rarden. Even an inferior one is much | substituted for spasmodic exercise better than none. Vegetables are indispensable to a family, so far as health is concerned, to my nothing of the money saved by not having to buy so much flour and so many groceries. It would seem that every man should manage to obtain a piece of ground and see that it becomes well fertilized and enriched and then put under a thorough state of cultivation before trying to plant the seeds. It only costs a little to buy enough seeds for quite a good-sized garden.

have not yet fully realized the solutions of many of the problems of change—they still are doubtful and modern cas life ever attempted in this exispletous. About four year ago, is country. It is in line with the best fore the tide of immigration and experienterprises for solving the questions of tal set in toward the Southwest, a housing, sanitation, education and stranger from the North drifted into riords. As such it should command this particular city. He was just the attention and co-operation of all

iand, timbered, but worthless on no time for the street corner, the cheap count of the annual floods. This fail show and the saloon. And it offers in he had hawked about the street for addition health, contentment and a 75c per scre, but found no takers substantial increase in income to the among the lome speculators. The workers. The increase takes a practitract was 'no good. It was offered out form in the shape of beaith from work to the air, from fresh vegetaldes Would be look at it? Yes the booked and fruits, from a clean environment It over, examined every acre of it - and from absence of bad habits; from came back to town and handed over men y saved from useless pastimes; \$10,000 for the worthless truct. Great from absence of doctors' bills and from was the for of the natives who were a direct return in the way of comfixed up at the virious bars, to drink modifies for use in the home or for

The founder and main supporter of the movement is Mr. George II. Maxwell, editor of Maxwell's Talisman and founder of the National Irrigation Movement. As a student of social couditions, Mr. Maxwell has concluded bankers and conservative capitalists that college settlements and similar kicked themselves for not thinking of movements merely scratch the upper surface of the problem and fall utterly to get under it and crowd it out with better condition. Ills creed is, Arkanens and Missouri-going west "Every child in a garden, every mother in a homecroft, and individual, iuetrangers are taking their places and disstrial independence for every worker

in a home of his own on the land." MEANING OF HOMECROFT.

The word "Homecroft" has been olned by Mr. Maxwell to fit the thing he has in mind. The Scotch word "eroft" means a very small piece of fund farmed intensively by its occupant but not large enough to yield him a living and constitute him a farmer. The Homecrofter, therefore, under the conditions being developed, is a laboring man, cierk, skilled artisan or what come by, and spends his spare time in, likewise be employed out of school bours and at other times when they would otherwise be on the street or forced into some one of the street trades to help maintain the home. For the children the ndvantages are obvious. Healthy exercise in the open air for a purpose, fresh vegetubles and other products, and occupation, are under jud conditions, stale vegetables or none at ail, and the gang.

It can be demonstrated that the ordinary factory worker on from one -half acre to an acre of land can earn actually more in the odd time given to his garden than he does from his regular work, taking it hour for hour. The other advantages are evident.

THE GILDHALL AND SHOPS.

town, has been purchased and converted into a Glidhaii and shops for the city and crected twenty-four The garden features in Bournville, phoenix, Arizona, a far indicate work. The land around the liouses for the workmen. Mr. George planned with much care, provision in into a homecrof; village, most cases believe made for some lines. on our public school system, to see in it" as they watch the fortunate ones now long they will have to wait. Many children not connected with the school watch the workers and play on the grounds, so that it has become a children's center for the town.

The opening or the garden school has aroused an interest among other private organizations in the neighborhood and the Women's Clirk of Watertown has established another garden school, also under Miss Illil's supervision, as is still another opened by the Women's Social Science Cinb of Newton, whose gurden is on Jackson Road near Non-Butum.

On the outer boundry of the town, the old Emerson Place has been jurchased and set aside as a garden school for boys and even men who de Minutes. sire to do practical work. The plots in this garden are large enough to perinit of practical experiments and to even supply quite a quantity of vegetables, which each gardener is allowed to appropriate to his own use. The only requirement is that each gardener provide his own tools and seed and pay sufficient attention to the instruction and to his work to keep his plot in fair condition and in harmony with the garden as a whole. There is in this garden plenty of space not taken and it offers a unique and valuable opportunity for any one desiring such work. The garden is supervised by a young man with practical experience in market gardening.

WEAVE BEAUTIFUL THINGS. The weaving department, the only handleraft department us yet developed in the Glkt, is supervised by Miss J. A. Turner, formerly with the experiment station for the blind in Cambridge. Miss Turner, assisted by her sister, has several looms already In working order and instruction has been taken up. The aim of the work in weaving, as it will be in other homeeraft work, is not to have a weaving establishment for the production of goods, but to conduct a school in weaving and design where women in the community may learn to do work which may be carried on in their homes. This, as in the case of the croft work, will enable them to occupy spare time, which would be otherwise wasted or Improperly spent, in congenial, healthy and remunerative employment. It is hoped and believed that such work will enable many women who have to supplement their Income to do it in their homes and not be forced into factories and other unsatisfactory conditions. A system will be developed whereby looms will be supplied by and the product sold through the Gild. By this method expenses will be kept at a minumum and the highest profits accrue to the

HOME LANDS IN SMALL PARCELS.

The more far-reaching and substan that feature of the movement is the acquisition and subdivision of land into small tracts for actual croft purpose as outlined above. This closeresembles the schemes developed in

printed to the use of a garden school experience, concluded that the only flowers, vegetables and fruits.

To return to the Homecrafters Elizabeth S. Hill of Groton, who last land where he might pursue the nathe wistful look of the children "not club room or public-house. If it were under one roof, to be placed at the

Something over fifty acres of land have airendy been purchased for subdivision, and improvement. This will be tically what it cost in large tracts, plus land values will necessarily increase. the cost of division and improvement, A special plan is to sell homes to industrious working men on a long Distribution of Immigrants the time, on the monthly instalment plan, at a rate which will be no more than is usually paid in rent, but which will create a sinking fund that will pay the purchase price and in the meanith its encouragement the abuse of thine carry what will amount to an inout further payment.

PLAN.

The movement is not intended to be an isolated one as the shops and gardens are open to any one who will use them in the right way. Mr. Maxwell feels that Isolation has been the that the people of the community must agencies, might also be brought me themselves become a part of such a movement if it is to succeed. Here dustrions and ambitious new com again the scheme resembles that of to their farms and smaller town Bonrnville. There, though practically all the houses have been hull by the management, only forty-one and twotenths per cent, of the occupants work In the village. Eighteen and six-tenths per cent, work in villages within a mile and forty and two-tenths per cent. work in Birmingham. Fifty and seven-tenths per cent. of them are employed at indoor work in factories. thirteen and three-tenths per cent, are clerks and travellers, and thirty-six per cent. are skilled workers and professional men. By this arrangement a normal community life is maintained. The Homecroft Gild is being developed along the same lines.

OVERCOMING PHYSICAL DEGENERACY.

The Gild is not making the mistake of trying to make farmers pure and simple out of city workers. Such a hard and fast line between city and country will always lead to failure. Mr. Maxwell says: "Give the city worker a home in the suburbs, where he can have a garden and a ponitry yard, and where his children can have sunshine and fresh air without stint, and you have largely done away with the terrible evils that are cursing the denizens of the congested quarters of our great cities—physical degeneracy tuberculosis, aud sociai, morai, and political dangers too numerons to be enumerated." Henry W. Grady de-scribed the antithesis when he said, "The citizen standing in the doorway of his home-contented on this thres hold-his family gathered about his hearthstone—while the evening of a well-spent day closes in scenes and sounds that are dearest—he shall save the republic when the drum tap is futile and the barracks are exhausted." The Homecroft Gild has other plans

tables and is under one of

unfailing crops.

These undertakings, while practical and constructive in every sense, are intended rather as models to show working in part or entirely on the land, has become a land of gardens where liopeless poverty is almost unknown and where tuberculosis is a negligable quantity. America can take care of its hopeless thousands in the same way, first by putting hope into them and then by putting them where they may attain it. It is to the prom of our great industries that we must ook for help in great part, but public entiment and sympathy will move the promoters and reach the problem The Homecrofters Glid promises a start which onght to weld together the country and the city into one indestructible whole and, supplemented by proper charity administration and sane vagrancy iaws, remove entirely the possibility even of a "submerged enth."

Parking for the Town. The town parks, or the town of village square are the lungs of its

If the town is growing, it is none too soon to start a movement to provide for the securing of ample town parking. The land is increasing; when the town has doubled and has become a small city, it will not be so easy to secure sites, readily accessible to the people, without paying an exorbitant price. Secure first the land; it is not important that a large amount of money should be at once expended upon its beautification, possibly it needs but little, since nature may have made it more beautiful than can man. It is not necessary that it should be transformed into carpet buds of flowers and trimly kept lawns. If it sfords smalight and a green relie of grass and trees for the eye, it becomes a civilizer and an equalizer, for the poor as well as the wealthy, a resting place where a man may forget, for the time, some of his struggles and his anxieties in a contemplation of what God has made.

The park should be kept, in fact, as natural as is consistent with its use as such. It is never too early, however, to seeme its site, with a view to the sold to workingmen for homes for prac-building up of the community, when

Solution.

If there were only some practicable way of distributing immigration more equally among all the ports of the the purchase price and in the mean-thne carry what will amount to an in-surance policy covering the amount of the purchase price and in the mean-country the congestion and segra-gation phases of this problem would be nearer solution. It can be accomthe grentest social evils of the time disappear. (The experience of Bournville certainly gives support to this out further payment.)

The experience of Bournville certainly gives support to this out further payment. the Gaiveston-Bremen service. FOLLOWS SUCCESSFUL ENGLISH and well organized effort to induce immigrants to pass through the large ports by finding and insuring them employment in the interior and by informing them of opportunities e where, will do much to improve conditions. The seif-interest of states, cause of fathere in such attempts and many of which maintain immigration generally into play to attract the in-

Improving School Grounds.

In Rochester, N. Y., the school authorities grade and sod the school yards, while the shrubbery and other planting is by private effort in conjunction with the school children. Ample land is furnished for decorative playground purposes, and most exemplary results have been obtained.

in Great Britain alcohol made un drinkable by the addition of Seperof wood alcohol and a much smaller proportion of mineral naptha is now sold freely without tax. Since 1887 termany also had untaxed alcohol for industrial purposes. France, witzerland, Holland, Relgium, Italy, Russin, Sweden, Norwny, Austria-Hungary, Portugal and six Latin-American republics exact no tax on this "dena tured" nicohol, nirenily regarded as one of the necessities of agriculture, munifacture and general industry, In these "free-nicohol countries" there are being used many varieties of at cohol engines, nicohol automobiles, niohol motor bonts, alcohol f rm motors, ulcohol lamps and alcohol

ALREADY SUCCEEDS IN EUROPE

Germany has far surpassed in all f these inventions, which were largely mothered by necessity, for the fatherland has no natural gas or petroleum But Its broad sandy plains produce cheap and alumdant crops of potatoes, from which every farmer n manufacture a vast quantity of raw alcohol. Inventors and selentists have been busy with improvements in farm distilleries, inotors, lamps, cooking and heating ipparatus. Their "spirit motors" are eing turned out in all forms-upright and horizontal, stationary, portable and locomotive Alcohol locomotives pull trains of a dozen cars on large farms, sugar plantations and engineering works. The army has had built ten horse-power alcohol "engineers' wagons," each with a speed of ten miles an hour, carrying tools and apparatus for a regiment of en-

tured (or undrinkable) alcohol back nto its original condition would be much more than for making pure alcohol anew, according to Dr. Wiley. He thinks the best method of making it undrinkable would be the addition of ten per cent, wood alcohol and one per cent. of "pyridine." According to the bill as it passed, the denaturing ingredients are left to the discretion of the internal revenue tax.

SOME NEW PARISIAN LINGERIE.

Colors in Blouses Very Fashionable Especially the Delicate Tints. BERTHA BROWNING.

In the new Paris lingerie, the fashion is to have sets of chemise, drawers and short petticoat of the same material and type, and all trimmed in the same manner. Nalusook and very fine butiste are the muterlals usually employed for their construction, the mode of slik underwear being for the time abandoned. There are two new fairles called allk nainsook and slik chiffon, both cotton, but of very fine weave, and which do not lose their glossy appearance in washing. These materials have much the appearance of sllk and in garments made of them lace is profusely used. The lace composes much of the upper portion of the chemise and the sleeves which are of bell shape reaching al most to the elbow. These are open

succession of riblem bows in itn-rie garments the square neck is "Lara, I cried She turned to me rie garments the square neck is is is always finished with a band of will call you. ace or embroidery.

The empire form is, of course, very is a pretty cut, it needs to be made | leeling. A pretty finishing to take the place of sleeves and shoulder parts on a garment to be worn with decollette dress, consists of ribbons which long. Goal long tie on the shoulders and may be un-

when worn with the evening gown. The Japanese nightgown of quite loose cut is a decided novelty. This has rows of little tucks descending from the shoulder and extending half way down the figure. A double band of Insertion starts at the foot of the gown, passes by the side of the tucks over the right shoulder and around the neck at the back, meeting in the centre of the front at the walatilne. The sleeves are loose and flowing as befits a garment of this nature. Few ulghtdresses have collars, most of them being unlabed with straight of embrotlery or lace.

CHARMING DRESSING SACKS Some very jaunty little dressing sacks of silky batiste or nalusook are being constructed. These are entirey accordeon pleated, except for a por ion of the sleeve. Lace and insertior meround the throat, and for those o Empire cut, a land of the same marks he high walstline in luck and li ront rises over the bust to be fastened aith ribbons. Some of these lingeric tea jackets have broad and elaborate collars which reach over the should

Another new comer is the blouse walstcoat of embroidered linen, butiste or moussellne de sole. This is made without sleeves and drawn in about the walst with a tapo to adjust the fulness in front. These are designed to he worn with lingerte suits of which a long or short jacket forms a part. Lingerie petticoats are of increasing daintiness. They are for the most part claborately trimmed, the top portion being of sheath-like cut and fitting without a bit of fulness. They are completed with broad flounces of tucks, embroidery and lace. Some of these flounces show several frillings of lace or embroldery, while others are elaborate with lianil-embroidered

Violets.

ilesigns.

The roses I sent were red, My rival sent her white; My heart is torn with doubt and fear-Which will she wear to-night?

I hear her step upon the stalr, Ah, Fortune, now disclose! My lady comes; stand still, my heart! Whose violeis are those?

One More on Mary.

From Technical World, "Mary had a little lamb, Just thirty years ago; The chops we had for lunch to-day Were from that lamb, we know.' Q. E. D.-How old is Mary?

The Pope's Wardrobe. A large number of women are employed at the Vatican solely in keeping the Pope's wardrobe in perfect condition. No spot or stain may disfigure his garments, and, as he always appears in white, even a few hours' wear deprives the robes of their freshness. Women are permitted to serve the Ponliff in this one respect only as male attendants are not considered sultable for the work. Only the most delicate materials are used-motre silk In summer, and a specially woven fine cloth in winter.

THE MESSAGE.

"Listen," said Raleigh, and suddenly elzed my hand.

"That is nothing but the alarm clock in the next room," I said. He did not seem to hear what I said, but kept on listening to the strange, ruttling noise, and I saw beads of cold perspiration on his forehead, while his hand turned cold as ice. Nevertheless there was in his eyes a far away look of expectancy, of dawning joy.

"It is nothing at all," I repeated. "I do not understand what is the matter with you. Tell me."

"Oh, never mind," he answered, "but surely you heard it as well as 1. Didn't you?" "Well, then, the time has come. For

hours, days, years, I have expected it, have ofttimes longed for, and still, now, when it has come, it seems hard to leave this world so suddenly." "Nonsense," I said, "what has the

alarm clock to do with your death? He looked at me with the same won derful expression in his eyes, and mald:

"Well, I will tell you what I have never told any one before." "You remember that Lora died three

years age." "She died at exactly twenty-three

I looked at my watch. "Just twenty minutes of five." "Yes, and three minutes ago that

darm went off, Just at the hour and innte of her death," I looked at Baleigh in astonishment. Well, even if that is so, I do not

ice what Lors's death has to ilo wah

"With me! Oh! but you don't know, even my dearest friend. How should on know that lora was my wife. Nobody knew it but ourselves."

"Lora was your wife!" "Yes, my wife," he replied, with tears in his eyes. "You know how her father hated me and why. Hut she loved me as I loved her, and so we married secretly a few weeks before she died. I was not at her deathland and would not have known had not the maluspring broken in that very lock we just heard with just the same peculiar noise. At the moment it hap sened a feeling of deadly terror overpowered me I rushed to her house but they would not let me in. I cried that she was my wife, but they slammed the door in my face, and I away.

"When I came to my senses again I

referred to the round this year, and and said, Walt for me, dear, the clock

PATTERNS.

A BECOMING DRESSING SACK

- 10

()()

Designed by BERTHA BROWNING.

Simplicity is a great factor in the designing of beautiful apparel. Some of the most attractive gowns are almost unadorned. Here is eketched a tittle dressing sack of white Swiss lined with pale blue, while the only decoration consists in the Prench knots of blue atoming the front facing, cuffs and belt. Pour small tucks provide an extra fullness over the lost, the fullness being then drawn down trioly into the belt. A simulated box pleat relieves the back from tost much plainness. The design is excellent for home construction, as as little labor is involved in the making. As to materials, lawn, dimity, a soft silk or chells may nerve in the medium size 31s yards of 36-inch in the medium size 314 yards of 36-in-

Pro-byterian church ast Sunday Saturday have ye? Man hungers in body port a good time soul and spirit and it covolves upon. The cometery at Sugar tirove will sick and the infirm and for this pur- vited to come and help pose many charitable institutions have been established. We satisfy! those who hunger for knowledge in the various institutions in our land, The great work of the church of Christ is to feed those who are spir itually hungry. Christ has given us an example of how this ern be done in the feeding of the multitudes with Saturday and Sunday with Earl Doba protracted meeting in Callaway a few loaves and fishes. He today bins and family. stands between the hungy multitude Rev. W. T. Oakley filled his regu- and his disciples and asks, How lem was raised by three distinct causes, the lack of food, the desert place, the hungry multitude. Christ on business Saturday. had compassion on the starving people, he did not neglect them because off while he was splitting stove wood they failed to bring enough food, nor Saturday. hand, the great power called into play. The disciples willingly helped to serve the people what Christ gave them. Christ used the materials he had, these appeared insufficient to trap. the followers of Christ but he made them abundantly satisfy the hongry. Thus the church is to supply the! Fresh cows of any age desired; wants of the needy and solve the withor wethout calves.
